Cities and Villages - History

Partial Reconstruction of Chatal Huyuk huts

“First true cities arose in Mesopotamia, and in the Indus and Nile valleys sometime around 3500 BCE.”
-- LeGates and Stout 2016, The City Reader

Based on a reconstruction by Orrin C. Shane III

After 10.000 BC humans settled down in villages. One of the best preserved is the Neolithic village at Chatal Huyuk in Anatolia (now modern Turkey). The partial reconstruction of the village gives an idea of buildings.

Smart Cities Vs Smart Villages

City - An inhabited place of greater size, population, or importance than a town or village
